

Multiplication Worksheet | Multiplication tables 2-10, missing factor

Instructions: Find the missing factors to complete each of the equations below.

1. $6 \times \underline{\quad} = 42$

2. $\underline{\quad} \times 9 = 72$

3. $5 \times \underline{\quad} = 15$

4. $4 \times \underline{\quad} = 8$

5. $\underline{\quad} \times 8 = 72$

6. $3 \times \underline{\quad} = 12$

7. $\underline{\quad} \times 6 = 12$

8. $7 \times \underline{\quad} = 35$

9. $\underline{\quad} \times 2 = 16$

10. $\underline{\quad} \times 3 = 18$

11. $\underline{\quad} \times 4 = 20$

12. $9 \times \underline{\quad} = 63$

13. $\underline{\quad} \times 8 = 24$

14. $2 \times \underline{\quad} = 10$

15. $\underline{\quad} \times 6 = 24$

16. $\underline{\quad} \times 9 = 63$

17. $8 \times \underline{\quad} = 24$

18. $\underline{\quad} \times 5 = 10$

19. $\underline{\quad} \times 4 = 24$

20. $9 \times \underline{\quad} = 27$
