

Multiplication Worksheet | Multiplying by 10, 100 or 1,000 with missing factors

Instructions: Multiply by 10, 100 or 1000 to find the missing factor in each problem below. Try solving these questions mentally without writing down intermediary steps.

A

1. $100 \times \underline{\hspace{2cm}} = 81300$
2. $\underline{\hspace{2cm}} \times 539 = 5390$
3. $\underline{\hspace{2cm}} \times 1000 = 495000$
4. $1000 \times \underline{\hspace{2cm}} = 276000$
5. $1000 \times \underline{\hspace{2cm}} = 691000$
6. $\underline{\hspace{2cm}} \times 1000 = 294000$
7. $\underline{\hspace{2cm}} \times 1000 = 444000$
8. $\underline{\hspace{2cm}} \times 100 = 6400$
9. $\underline{\hspace{2cm}} \times 187 = 187000$
10. $1000 \times \underline{\hspace{2cm}} = 902000$

B

1. $\underline{\hspace{2cm}} \times 1000 = 713000$
2. $\underline{\hspace{2cm}} \times 1000 = 224000$
3. $\underline{\hspace{2cm}} \times 356 = 356000$
4. $787 \times \underline{\hspace{2cm}} = 7870$
5. $10 \times \underline{\hspace{2cm}} = 1530$
6. $26 \times \underline{\hspace{2cm}} = 26000$
7. $\underline{\hspace{2cm}} \times 819 = 8190$
8. $\underline{\hspace{2cm}} \times 100 = 7300$
9. $\underline{\hspace{2cm}} \times 1000 = 465000$
10. $1000 \times \underline{\hspace{2cm}} = 963000$
