

# Multiplication Worksheet | Multiplying by 10, 100 or 1,000 with missing factors

**Instructions:** Multiply by 10, 100 or 1000 to find the missing factor in each problem below. Try solving these questions mentally without writing down intermediary steps.

## A

1.  $1000 \times \underline{\quad\quad\quad} = 24000$

2.  $\underline{\quad\quad\quad} \times 680 = 68000$

3.  $\underline{\quad\quad\quad} \times 1000 = 132000$

4.  $\underline{\quad\quad\quad} \times 100 = 51200$

5.  $10 \times \underline{\quad\quad\quad} = 6800$

6.  $702 \times \underline{\quad\quad\quad} = 70200$

7.  $451 \times \underline{\quad\quad\quad} = 451000$

8.  $1000 \times \underline{\quad\quad\quad} = 320000$

9.  $\underline{\quad\quad\quad} \times 100 = 25700$

10.  $\underline{\quad\quad\quad} \times 10 = 9820$

## B

1.  $263 \times \underline{\quad\quad\quad} = 263000$

2.  $\underline{\quad\quad\quad} \times 239 = 23900$

3.  $\underline{\quad\quad\quad} \times 1000 = 416000$

4.  $1000 \times \underline{\quad\quad\quad} = 515000$

5.  $\underline{\quad\quad\quad} \times 1000 = 320000$

6.  $\underline{\quad\quad\quad} \times 65 = 65000$

7.  $\underline{\quad\quad\quad} \times 350 = 35000$

8.  $\underline{\quad\quad\quad} \times 1000 = 947000$

9.  $405 \times \underline{\quad\quad\quad} = 405000$

10.  $1000 \times \underline{\quad\quad\quad} = 387000$
